PEDRO MASDY

M: +62 851-8206-1085 | **E:** pedromasdy9@gmail.com | **L:** LinkedIn | **G:** GitHub | **P:** Portfolio | **D:** Pekanbaru

Data & AI Analyst with a Bachelor's degree in Information Systems (**GPA 3.71/4.00**, graduated in 7 semesters) and **six international data & AI specializations** from Google, IBM, Meta, and Vanderbilt (2026). Hands-on across the full analytics workflow — data cleaning, exploratory analysis, SQL, dashboards, and machine learning — with shipped proof: two production web systems (PHP/MySQL) and a thesis-grade deep learning model for customer churn prediction (**AUC 0.9377**). Background spans a Generative AI Engineer internship at Indonesia's Ministry of Manpower and IT/data roles in education.

SKILLS

Languages: Python (pandas, scikit-learn, XGBoost, TensorFlow) · SQL · PHP · JavaScript · HTML/CSS · Java

Data & Analytics: data cleaning & validation · exploratory data analysis · statistics & regression · data storytelling · dashboards (Excel, Cognos) · data analysis · churn modeling & evaluation (AUC, accuracy) · feature engineering · machine learning · deep learning

Tools & Platforms: Google Colab · MySQL · PostgreSQL · Microsoft Excel · Microsoft Office · Git & GitHub · n8n · Generative AI (ChatGPT, Claude, Gemini, Perplexity) · Bootstrap · FPDF

Other: IT support & networking · UI design · customer relationship management (CRM) · project management · problem solving · teamwork · communication · time management

CERTIFICATIONS

- **Google Advanced Data Analytics** Professional Certificate — Google (Coursera), 2026
- **Google Data Analytics** Professional Certificate — Google (Coursera), 2026
- **Google AI Essentials** Specialization — Google (Coursera), 2026
- **IBM Data Analyst** Professional Certificate — IBM (Coursera), 2026
- **Meta Data Analyst** Professional Certificate — Meta (Coursera), 2026
- **Generative AI Data Analyst** Specialization — Vanderbilt University (Coursera), 2026
- Operating Generative AI Tools for Digital Content and Business — **BNSP**, 2025
- Computer Technical Support — **BNSP**, 2022

WORK EXPERIENCE

SPX Express | Pekanbaru, Indonesia Feb 2026 – May 2026

Delivery Operation Partner

- Managed 140+ daily deliveries across 4 operational zones using SPX's internal routing/dispatch system, achieving consistent 95%+ on-time delivery accuracy.
- Optimized delivery routes using the Shopee (SPX) dispatch app, minimizing delays and improving overall delivery efficiency by ~20% per shift.
- Coordinated with 80 couriers under tight operational deadlines, ensuring delivery targets were consistently met despite high-volume demand spikes of up to 2× normal capacity.
- Maintained accurate delivery documentation and 100% proof-of-delivery records, strengthening service accountability and reducing dispute cases by ~30%.
- Communicated proactively with customers and warehouse teams to resolve delivery issues in real time, minimizing complaints and repeat delays across 4 zones daily.

Kementerian Ketenagakerjaan RI | Pekanbaru, Indonesia Oct 2025 – Dec 2025
Generative AI Engineer Intern

- Supported planning and implementation of 6 automation initiatives (ChatGPT, Claude, Perplexity, Suno AI, n8n, Gemini), accelerating internal workflow automation across 3+ departments.
- Performed analytical and structural assessments on 2,500+ data points, delivering insights that supported faster operational decision-making, reducing review cycles by ~40%.
- Leveraged critical thinking to solve problems and optimize 5+ workflows, improving process efficiency across the division by an estimated 25%.
- Collaborated with 3+ cross-functional teams to translate generative AI capabilities into practical operational use cases, increasing AI tool adoption within the team by ~60%.
- Documented 10+ workflows and findings to support knowledge-sharing within the division, enabling smoother onboarding and process replication for 4+ new members.

State Senior High School 1 Pangkalan Koto Baru | Pangkalan Koto Baru, Indonesia May 2024 – Sep 2024
IT Technical Support Intern

- Processed and analyzed academic data of 500+ students using Microsoft Excel, generating structured reports that sped up administrative decision-making by ~3× vs. manual methods.
- Supported development of 2 web-based administrative systems using PHP and SQL, and delivered digital-literacy training to 20 staff and students, improving system adoption by ~70%.
- Digitized previously manual administrative workflows across 5+ administrative areas, improving data accuracy and cutting reporting turnaround time for school leadership by ~50%.
- Assisted 15+ teachers and staff with day-to-day technical troubleshooting and system usage guidance, reducing downtime and reliance on external IT support by ~40%.
- Coordinated with school administration to align 3+ system features with reporting requirements, ensuring the system met real operational needs and passed acceptance testing.

UIN Sultan Syarif Kasim Riau | Pekanbaru, Indonesia Jun 2024 – Aug 2024
Network Infrastructure Team

- Implemented network infrastructure across 14 buildings, including UTP cable installation and RJ45 termination, expanding reliable network access for ~2,000+ campus users.
- Installed and configured 256 Ruijie access points in a systematic rollout, improving campus-wide WLAN coverage and connectivity stability by ~80% vs. previous setup.
- Collaborated within a 13-person team performing responsive LAN/WLAN troubleshooting in elevated/hard-to-reach areas, minimizing network downtime by ~35% per incident.
- Tested and verified network connectivity post-installation across 256 nodes, ensuring stable campus-wide access with <1% service disruption rate.
- Documented 14-building installation progress and technical issues to support project reporting, enabling ~50% faster issue resolution and smoother project handover.

Faculty of Science and Technology, UIN Suska Riau | Pekanbaru, Indonesia Sep 2023 – Jun 2024
IT Support & Laboratory Assistant

- Provided daily preventive and corrective technical support for 83 computer units across 3 laboratories, minimizing equipment downtime by ~40% vs. previous semester.
- Installed Windows operating systems and maintained 4 specialized software tools (VS Code, Packet Tracer, XAMPP, and others), keeping labs consistently ready for 20+ practicum sessions per month.
- Ensured LAN connectivity stability across 3 labs, independently resolving 10+ hardware issues per month to keep practicum sessions running without disruption.
- Assisted 50+ lecturers and students with software setup and troubleshooting during practicum sessions, reducing delays in class activities by ~30%.
- Maintained inventory and basic upkeep of 83 laboratory hardware units, minimizing downtime and extending equipment lifespan by an estimated +1 additional semester.

FEATURED PROJECTS & RESEARCH

Sistem Absensi (School Attendance System) 2024

PHP · MySQL · Bootstrap

- Developed a web-based, multi-role attendance system (4 roles: Admin, Teacher, Principal, Student) to digitize manual attendance recording, reducing data entry errors by ~90%.
- Built real-time dashboard analytics, monthly report export, and location-based attendance validation; implemented and actively deployed at 1 school site.
- Replaced manual attendance logs for 500+ students, reducing recording errors and speeding up monthly reporting for school administrators by ~3×.

Sistem Manajemen Peternakan Ayam Petelur 2025

PHP · MySQL · Bootstrap · FPDF | Freelance Project

- Designed a relational database (6+ tables) and web system to monitor daily egg production, feed stock, and distribution logistics across 3+ poultry farm locations.
- Implemented feed and mortality tracking with real-time profit/loss reporting exported to PDF, enabling farm owners to generate financial reports in <5 minutes vs. hours manually.
- Gave 3+ farm owners real-time visibility into profitability and operations, reducing manual bookkeeping by ~70% and supporting faster operational decisions.

GWO-Attention-ConvLSTM for Customer Churn Prediction 2026

Undergraduate Thesis, UIN Suska Riau · Python · TensorFlow

- Built a hybrid deep learning model (ConvLSTM + Attention Mechanism) to predict customer churn from 12-month temporal-spatial CRM data, mapped into 5D tensors for sequence modeling.
- Applied Grey Wolf Optimizer (GWO) for automated hyperparameter tuning across 5+ parameter configurations, achieving an AUC of 0.9377 and accuracy of 86.63% on test data.
- Impact: enabled more accurate identification of at-risk customers, providing a data-driven foundation for targeted retention strategies — surpassing baseline models by ~5–9% AUC.

Waze User Churn Prediction 2026

Google Advanced Data Analytics · Python

- Predicted user churn on 14,999 real rows: Random Forest (accuracy 0.784, AUC 0.726) outperformed XGBoost; key drivers were activity_days, n_days_after_onboarding, and driving_days.

NYC Taxi Trip Behavior Analysis 2026

Google Advanced Data Analytics · Python

- Analyzed 400,000 taxi trips from January 2017 (~12,819 trips/day): Saturday busiest, 71% of trips on weekdays, 6 PM peak hour — translated into segmented promo recommendations.

NYC Taxi Fare Analysis 2026

Google Advanced Data Analytics · Python

- Analyzed 22,699 trips: airport fares averaged 4× regular fares ($40.12 vs $10.39), distance–fare correlation r=0.95, JFK flat fare $52, 67.6% paid by credit card.

Divvy Bike-Share Capstone 2026

Google Data Analytics · Python · Google Colab

- Analyzed ~1.2 GB of real trip data in Google Colab; scored 100%.

IBM Data Analyst Capstone 2026

IBM Data Analyst · Python

- Built an 18-slide analytical report from a survey of 18,845 respondents.

ORGANIZATIONAL EXPERIENCE

Predatech Feb 2025 – Jan 2026

Head of Public Relations Division

- Led public relations and organizational branding initiatives while managing 18 division members across 3+ sub-divisions.
- Collaborated with 5+ internal teams and external partners to plan and execute 10+ organizational activities throughout the year.
- Strengthened leadership, communication, and stakeholder management skills through 12+ months of active division leadership.

Faculty Executive Board of Science and Technology (DEMA FST) Jan 2025 – Jan 2026

Head of Member Resources

- Led human resource initiatives and supervised 3 team members, managing 30+ member records and HR documentation within the organization.
- Coordinated 5+ member development programs and internal evaluations across 2 semesters, supporting organizational capacity building.
- Strengthened leadership, communication, and decision-making skills through 12-month continuous collaboration and cross-division team management.

FORMAL EDUCATION

State Islamic University of Sultan Syarif Kasim Riau (UIN Suska) Sep 2022 – Jan 2026

S1, Bachelor of Information Systems (S.Kom) | Pekanbaru, Indonesia

Graduated with a GPA of 3.71 / 4.00 and received the KIP-Kuliah Scholarship from Kementerian Agama Republik Indonesia (2022).
